ERGONOMIC DESIGN

Non-slip rubber coating, comfortable grip, no fatigue after long use.

ERGONOMIC GRIP

comfortable even after long holding

TRIPLE-CONTACT DESIGN ACHIEVES SMART HAND ERGONOMICS

1 5.5CM AT 75°

Men's hands are larger and stronger. The thumb web area features smart ergonomic design. When gripping, the 75° finger angle and 5.5CM grip span lock perfectly with the handle. Direct force transfer saves energy while maximizing control efficiency.

2 6.6CM

Ergonomic alignment between the interdigital zone (index-middle finger junction) and the 6.6CM thenar eminence point is critical. This biomechanical partnership boosts work efficiency by 23% and reduces hand fatigue by 37% through optimized force distribution.

3 5CM

Ergonomic collaboration between the index finger base and the 5CM thenar muscle tail creates a golden ratio. Ensures even force distribution and maintains comfort during high-intensity hand use.

SOFT WATER FLOW
GENTLE ON HANDS

Safe for play, complete peace of mind.

TS GARDEN 4 CORE BENEFITS OF ERGONOMIC GRIP

1. 3D bionic curvature for a snug palm fit.
2. TPR non-slip soft gel with skin-friendly touch like silicone.
3. Natural arm extension with relaxed joints.
4. Anti-slip drainage grooves, say goodbye to sweat and stuffiness.

LABOR-SAVING TRIGGER
EASY TO USE

HEALTHY, RELIEVE PRESSURE ON WRISTS
